

Principal's Welcome

Principal's Welcome

It is with great pride that I welcome you to our school community. Narangba Valley State High School although very young and still very much in the growth stage has from its inception been an educational leader within Queensland. From our highly innovative teaching practices to our unique timetable structures the focus is squarely on maximising the potential of each and every one of our students.

Ross Mackay - School Principal

We boast a highly committed and skilful staff with a passion for ensuring optimal learning outcomes for our students. This combined with a highly supportive parent and local community forms the foundation of our high quality educational service. Education Queensland has invested considerably to ensure our students enjoy state of the art facilities across the curriculum all with the constant focus on maximising learning outcomes.

Although a large school in number we very much value and work vigorously to ensure a family atmosphere where open communication and quality relationships are established with families. It is through the nurturing of this learning team comprising the student, the family and our teachers and support staff that the high quality educational experience and effective personal growth of each student is realised.

Please do not hesitate to make contact with our school via phone, fax or email or make an appointment to come and visit to meet our staff and gain first hand awareness of our wonderful school.

Yours in education

Ross Mackay
Principal
